audiology service of Vicdeaf.

ALERTING DEVICES

The Bellman Visit System

The Bellman Visit system can alert you to important activities around the home including the telephone, doorbell, smoke alarm, even the baby crying!

You can be alerted to these activities by light, sound or vibration using any combination of the wireless transmitters and receivers below.

There are many package combinations to choose from, or you can pick and choose individual items to best suit your needs.

The **Bellman Visit Push Button Doorbell Transmitter** alerts you when a person is at the door. Installation is easy, just place it next to your existing door chime. No wiring required.

\$149

The **Bellman Visit Portable Receiver** transmits a tone and flashing light for each of the Bellman Visit Transmitters. The volume can be adjusted from 0 to 90dB, and it has a range of 30 meters.

\$249

The **Bellman Visit Telephone/Multi Purpose Transmitter** tells you the phone is ringing, when connected to the phone line. This transmitter can also be programmed as a personal alarm or alerting device.

\$149

The **Bellman Visit Flash Receiver** is a portable strobe light that receives signals from any Bellman Visit Transmitter. This allows it to be placed anywhere in the home during the day.

\$289

The **Bellman Visit Smoke Alarm** is a battery operated photo-electric smoke alarm AS3786 approved. It makes a loud noise when smoke is detected, sending a signal to your pager or portable receiver.

\$299

The **Bellman Visit Bed-Shaker** vibrates when activated by any Bellman Receiver or Charger. Placing it under your pillow ensures you will be alerted even when you're sleeping.

\$49

The **Bellman Visit Baby Cry Monitor** alerts you when baby is crying. It has 3 sensitivity levels to suit different situations.

\$249

The **Bellman Visit Pager** receives signals from any Bellman Visit Transmitter. It will vibrate if any transmitter is activated, and is rechargeable.

\$399 (Charger: \$149)

ALERTING DEVICE PACKAGES

Visit Care Package

Contains: 1x Doorbell Transmitter, 1x Flash Receiver

This package is the ideal solution for the person who has difficulty hearing the doorbell or phone ringing. The powerful flash receiver flashes green when someone is at the door, and yellow if someone is calling you. This package comes ready to install and doesn't require any electrical wiring or technical expertise.

\$409

\$799

Baby Cry Pager Pack

Move around the home during the day, secure in knowing the Bellman Pager will alert you when baby cries. The pager simply clips onto your clothing or belt. The pager when not in use must be placed on the charger.

You may be eligible for the Vicdeaf Baby Cry Loan Scheme follow the link for more information.

Baby Cry Package

Contains: 1x Baby Cry Transmitter, 1x Flash Receiver, 1x Bed Shaker

When baby cries, the Flash Receiver strobe light is activated to alert you during the day, and combines with the Bedshaker to ensure you are alerted, even while you sleep! This is the perfect solution for new parents.

The Vicdeaf Baby Monitor Subsidy Initiative is available to Victorians who are profoundly deaf. See our Devices Specialist to find out more.

\$499

SMOKE ALARM PACKAGES

\$570

Bellman Smoke Alarm Package

Contains: 1x Smoke Alarm AS3786 approved, 1x Flash Receiver, 1x Bed Shaker

This package includes all the necessary components to give a person a visual and vibrating alert to the smoke alarm. The Flash Receiver is placed beside the bed and connected to the Bed Shaker. When the Smoke Alarm is activated it sends a radio signal to the Flash Receiver. The Flash Receiver is connected to power via a mains adaptor and has a built in rechargeable battery backup.

The Vicdeaf Smoke Alarm Subsidy Initiative is available to Victorians who are profoundly deaf. See our Devices Specialist to find out more.

Brooke Smoke Alarm Package

Contains: 1x Brooks Fire Alarm, 1x Brooks Visual Alert, 1x Pillow Shaker

Worried that you or a loved one will not hear the smoke alarm?

The Brooks Smoke Alarm package includes components to give a visual and tactile (vibrating) alert, as well as the usual sounding alarm when the smoke detector is activated.

Complete with 5 year warranty and 10 year battery back up.

Price after Government subsidy: **\$50**
Are you eligible? Contact us to find out.

\$650

PHONES & ACCESSORIES

\$349

Bellman BE1380 Visit Alarm Clock

The top of the range Visit Alarm clock has all the features of the Bellman Pro, with the added benefit of incorporating the Bellman Visit Alerting System acting as a receiver for the Bellman fire alarm, doorbell, telephone and baby cry transmitters.

TV/MUSIC LISTENING

\$409

Set840

The Set840 TV listening system is ideally suited for wireless listening in your house or yard. It has a wireless range of up to 100m, and can even transmit through walls. This headset is incredibly lightweight and delivers crystal clear sound. It can be used with either plasma or LCD televisions.

\$460

Set840S

The Set840S is a TV listening system especially suited for those who wear hearing aids. Easily connected to a TV, hi-fi system or radio, the Set840S produces excellent sound, delivered directly to your hearing aids via the T-coil program. This system has a range of 100m (even through walls) and can be used with either plasma or LCD televisions.

\$89

Music Link Stereo

Listen to music in stereo! The music link can transmit stereo sound to you via the "T" switch on your hearing aid or cochlear implant. The music link has a standard 3.5mm stereo plug for use with any product with a headphone socket.

\$89

Bellman High Powered Neckloop

Provides a powerful high quality sound delivered via the T-Coil program on your hearing aids. Just plug it in to your iPod, iPhone or any other device with a 3.5mm socket. Switch your hearing aid(s) to T-position and enjoy!

DIGITAL FM SYSTEMS

Bellman Audio Domino Hearing System

The Bellman Audio Domino Hearing System is a wireless personal hearing system consisting of a transmitter and a receiver equipped with state of the art microphones. You simply place the microphone closer to the sound source you want to hear. Sound is picked up by the transmitter and sent to the receiver over a wireless encrypted radio link. Using digital sound processing, background noise is eliminated and sound is clarified, resulting in a better listening experience. Suitable for use with or without hearing aids.

Domino Pro

- 2 omni-directional microphones
- Up to 12 hour operating time
- 16 bit digital signal processing
- 128 bit digital encryption
- 2 directional microphones
- Rechargeable battery
- 2.4 GHz broadband radio link

\$1595

\$1095

Domino Classic

- 2 omni-directional microphones
- Rechargeable lithium-ion battery
- 2.4 GHz broadband radio link
- Up to 12 hour operating time
- 16 bit digital signal processing
- 128 bit digital encryption

Bellman Personal Communicators

Bellman Audio offers two personal communicators, Mino and Maxi, that work as speech amplifiers to help you clarify speech in difficult hearing situations. These handheld devices can be used to complement your hearing instrument or as an alternative to traditional hearing aids.

Mino

- 1 Omni directional microphone
- 1 directional (zoom) microphone
- Can use with telecoil
- 16 bit digital signal processing
- Up to 150 hour operating time

Optional: \$469 with neckloop or stethoclip

\$449

\$325

Maxi

- 1 Omni directional microphone
- Up to 150 hour operating time
- 16 bit digital signal processing
- Can use with telecoil

Optional: \$345 with neckloop or stethoclip
